BIOGRAPHY

Mark St. Marie
National Technical Lead – Healthcare
Avon, Indiana

Mark, a seasoned professional with over 30 years of diverse experience.

With a background encompassing Department of Defense, Federal Government, and private sector Industrial Hygiene roles, Mark brings expertise in healthcare, laboratory/research, and manufacturing environments.

Previously, he served as the Director of Strategic Business Development for the 26 Eurofins Built Environment Testing Laboratories U.S. and as the National Industrial Hygiene Program Manager for the Department of Veterans Affairs, overseeing policy development, implementation, and compliance across 175+ Medical Centers.

A retired U.S. Air Force Industrial Hygiene Bioenvironmental Engineering Professional, he holds certifications as a Board for Global EHS Credentialing (BGC) professional, Certified Industrial Hygienist (CIH), and CETA CNBT Registered Certification Professional for Sterile Compounding Facilities (RCP-SCF).

Mark is dedicated to STEM education and training. During his tenure at the USAF School of Aerospace Medicine, he instructed new Air Force enlisted and officer Industrial Hygiene Bioenvironmental Engineering Airmen, teaching a comprehensive curriculum covering industrial hygiene principles, analytical chemistry, air monitoring techniques, and more. Mark is an Adjunct Instructor at the Eagleson Institute, ME, Certification of Sterile Compounding Facilities Course.
